Monetize every step and new knowledge!

Join the future today!
We are launching a P2E game right inside
the decentralized A4 Wallet app

SPEXY.game

P2E game with Move2Earn & Learn2Earn elements, which is fully integrated into the A4 Wallet

The project's final goal — creation of the A4 Metaverse

Our game will serve as a guide to the new digital world, where the link between the real life and the virtual one is a crucial evolutionary element

SPEXY with all its characteristics will be moved as NFTs to the A4 Metaverse, where you will:

1. Study blockchain technology using the most in-demand languages and frameworks

2. Experience gamified learning by interacting with actual programming mechanics (e.g., smart contracts) through gameplay

3. Train in robotics and hardware management by assembling, repairing, and upgrading SPEXY robots

4. Utilize liquidity farming

5. Participate in PvP battles

SPEXY robot

SPEXY is a game character whose story begins in the A4 Wallet

There are 5 SPEXY Models and numerous levels, each with unique features and looks

The first game iteration allows you to: earn cryptocurrency (by completing tasks and learning), upgrade your Robots with XP (increasing their level and your income), and reserve land in the A4 Metaverse

Lease your SPEXY to any user and generate passive income

Rent a Robot: move, learn, and earn cryptocurrency without investing!

Goals

SPEXY focuses not only on crypto players

According to a 2022 Statista survey, 2.5 billion people regularly play video games. The different development directions of SPEXY are envisioned in such a way as to not just attract Millennials and Gen Zers, but also to give them basic knowledge of the crypto market through GameFi mechanics and other educational products in the A4 ecosystem

It is through adoption and promotion of SPEXY among mainstream users, we will be able to not simply attract one-time players, but to grow a generation of digital world experts, proficient in various information technology fields

A low entry barrier and a clear selection of roles will attract users regardless of their age, gender, or income

Play, learn, and earn!

Roadmap

1. ✓ Development of game mechanics and game economy

2. ✓ Development of 3D models and animations

3. ✓ Creation of educational content block

4. ✓ Creation of a decentralized wallet integration module

5. ✓ Stress testing

6. ✓ Alpha testing

7. Beta testing

8. SPX token listing

9. Community giveaways

10. Launch of the first iteration of the game

11. A4 Metaverse development

12. A4 Metaverse launch

13. Development and release of new A4 Metaverse games and mechanics

Robot owners will get to reserve a plot of land in the A4 Metaverse

Fusing M2E and L2E together

We provide our potential users, including those in the **43-million community** of our key media partner Vlad Bumaga, with new knowledge in the GameFi format and let them profit from it.

This will be a global event, reverberating well beyond the crypto community

43+
000
000

SPEXY token (SPX)

Reward token

Initial distribution:

1,000,000 SPX
Liquidity

300,000 SPX
Bounty 🔒 (🔒 03.03.23)

Emission:

In the first iteration of the game the token issuance will be unlimited. Its minting period will end once all the land plots in the A4 Metaverse are reserved.

The token can only be received in exchange of XP, which users can get during the game

Path: Investor

Buy SPEXY:
Every Robot you buy will yield rewards and land in the A4 Metaverse

Lease:
Create Vacancies and instantly lease Robots to other players, easily customizing rental terms

Get passive income:
Let Renters do the work and only share rewards with them

Boost your MetaTeam:
Invite the maximum number of MetaTeam members to get to the top of the leaderboard

Path: Gamer

1 Get a Robot:

Buy your SPEXY Robot on the marketplace or rent one for free on the exchange

2 Move and grow:

Walk 5 kilometers a day and move to an extra task

3 Discover new things:

Explore articles about IT, blockchain, and robotics and complete tests to get more rewards

4 Earn:

Collect rewards in cryptocurrency for completing all tasks

Economy

Prices of Model S, P, E, X, and Y Robots in the first iteration of the game:

$10	$100	$1000	$10,000	$100,000
S	P	E	X	Y

Withdraw rewards every day:

As Investor

S	0,36-0,48%
P	0,36-0,48%
E	0,36-0,51%
X	0,36-0,54%
Y	0,36-0,57%

As Gamer

0,6%

of the current value of the Robot

XP is converted to the SPX token at the current exchange rate. You can always be sure that you will receive 0.6% of the current value of the Robot denominated in USD!

Upgrade

Upgrade your Robots

Advance your SPEXY to the next Model and get new perks:

- Increased royalties from purchases of your MetaTeam members
- Higher daily income
- Exterior character enhancements

At each new level, the value of the robot increases by 6%. Upon reaching level 40, the robot is upgraded to the next Model. All upgrades occur automatically when the necessary amount of experience (XP) is accumulated on the Robot's balance

You can always quickly upgrade your Robot to the desired level or model using XP from the main balance

Grow your MetaTeam

To create your own MetaTeam, buy any Robot and invite your friends to the game using your personal invitation code.

Your MetaTeam and the rewards for your invited users' purchases will grow with every higher-tier Robot in your possession.

Model SPEXY	Level 1	Level 2	Level 3	Level 4	Level 5
S	3%	🔒	🔒	🔒	🔒
P	4%	2,5%	🔒	🔒	🔒
E	5%	3%	2%	🔒	🔒
X	6%	4%	3,2%	4%	🔒
Y	8%	4,5%	3,5%	5%	4%

When you unlock new Models, you instantly get the royalties which were previously inaccessible and according to the new rate

The higher your Robot Model, the more royalties to claim!

Brand your MetaTeam

Owners of either an X or Y Model Robot will have the right to brand their MetaTeam.

You'll be able to:

1. Set your MetaTeam's name

2. Add info about yourself and your team

3. Place links to your official website, Telegram and Twitter accounts
